

学术报告 II

报告题目 (Title): Small-amplitude solutions of hamiltonian PDEs
on multi-dimensional tori

报告人 (Speaker): Professor S.B. Kuksin 法国巴黎 7 大

时间 (Time): 5 月 13 日 (周五) 下午 4: 10-5: 10

地点 (Venue): 北京大学理科一号楼 1114

摘要 (Abstract): I will discuss the problem of studying the long-time behaviour of solutions for nonlinear Hamiltonian PDEs on T^d , paying special attention to the multidimensional non-linear beam equation. The talk is based on my recent joint work with H. Eliasson and B. Grebert.
