报告题目 (Title): Variational Approach for Stochastic Partial  
Differential Equations

报告人 (Speaker): 刘伟 教授 江苏师范大学

时间 (Time): 5月23日(周一)下午 3:00-4:00

地点 (Venue): 北京大学理科一号楼 1303

摘要 (Abstract): In this talk we will first recall the classical variational framework established by Pardoux, Krylov and Rozovskii for stochastic PDEs, then we will review some recent well-posedness and asymptotic results for stochastic PDEs in the classical/generalized variational framework.
