报告题目 (Title): Rigidity of the stochastic entropy for
symmetric spaces without focal points

报告人 (Speaker): 束琳 副教授 北京大学

时间 (Time): 12月02日(周一)下午 3:00-4:00

地点 (Venue): 北京大学理科一号楼 1493

摘要 (Abstract): We characterize symmetric spaces without focal points by the equality case of general inequalities between geometric quantities. This is a joint work with Prof. F. Ledrappier.
